

TGR EDU: CREATE

International STEM Studio Application

What is International STEM Studio?

International STEM Studio is a unique opportunity for educators from around the world to come together and learn how to make their classrooms active, student-centered environments. The 10-day STEM Studio will be held at TGR Foundation's Learning Lab in Anaheim, California. Educators will engage in hands-on activities that promote active engagement and encourage critical thinking in their students.

Who should apply?

Educators that have had success in their teaching careers and are ready to develop a hands-on, minds-on teaching approach for their students are ideal applicants. The primary content focus of this training is Science, Technology, Engineering and Mathematics (STEM). Applicants should either have experience in STEM teaching or will be teaching STEM classes at their school in the near future.

Why should you attend?

A unique aspect of this training includes developing an action plan to ensure you are able to apply what you learn at International STEM Studio at your own school. TGR Foundation is committed to supporting educators in achieving this transfer of teaching practice, for themselves and other educators at their school. We will prepare you to make a positive impact on the learning at your school!

Example Schedule of International STEM Studio

- Day 1: Introduction to active, student-centered teaching
- Day 2: Choose from different hands-on STEM activities
- Day 3: Develop hands-on STEM unit and get peer feedback
- Day 4: Leading the change for active, STEM teaching
- Days 5 and 6: Exploring the world of STEM in Southern California
- Day 7: Introduction to STEM Excellence Pathway
- Day 8: Complete STEM learning self-assessment and action plan
- Day 9: Transferring activities to fit home school
- Day 10: Presentation of final action plans and closing

About TGR Foundation - A Tiger Woods Charity

For over 20 years, TGR Foundation has been unwavering advocates for the transformative power of education. We have a universal vision: giving students in need the right resources for lifelong success in school, their communities and the working world. For more information, visit TGRFoundation.org.
